CAREER OBJECTIVE

Computer Science student with a strong foundation in programming, Data Structures and Algorithms, Object-Oriented Programming, and Machine Learning. Hands-on experience in developing practical technology projects and applying analytical and problem-solving skills to real-world challenges. Quick learner with a strong technical foundation, adaptability, and a commitment to continuous learning and professional growth in the technology industry.

PROJECTS

GOLD_PRICE_PREDICTION

MAY 2026

- Developed a machine learning model to predict gold prices using financial indicators such as SPX, USO, SLV, and EUR/USD exchange rates.
- Performed data preprocessing, feature selection, and exploratory data analysis (EDA) to improve data quality and model performance.
- Implemented Random Forest Regression for prediction and evaluated the model using performance metrics such as R² Score, achieving high prediction accuracy
- Built data visualizations and comparative analysis of actual vs. predicted prices to generate actionable insights from financial market trends.

EMPLOYEE ATTRITION PREDICTION & RETENTION ANALYTICS

JUNE 2026

- Developed an end-to-end **Employee Attrition Prediction and Retention Analytics system** using Python and Scikit-learn..
- Compared 6 ML models and selected **Logistic Regression (ROC-AUC: 0.8554)** as the best model after applying SMOTE for class imbalance
- Used **SHAP Explainable AI** to identify key attrition drivers and built a risk classification and personalized retention recommendation system.
- Built an interactive **Streamlit dashboard** to visualize employee attrition risk and support data-driven HR retention decisions.

EDUCATION

GALGOTIAS UNIVERSITY – Greater Noida, U.P.

September 2024 - Present

- Bachelor of computer Application CGPA – 7.85

LAXMI S N SENIOR SECONDARY SCHOOL– Bari, Dholpur, Rajasthan -

June 2023 – April 2024

- SENIOR SECONDARY (12TH) IN PCM Grade – 70.40%

GOVT SR SEC SCHOOL– Bari, Dholpur, Rajasthan

June 2021 – April 2022

- SECONDARY (10TH) Grade - 64.83%

SKILLS

- Programming:** Python, Java, C, C++
- Machine Learning:** Regression, Classification, Supervised & Unsupervised Learning, Reinforcement Learning
- Libraries:** NumPy, Pandas, Matplotlib, Scikit-learn, Streamlit
- Data Analysis:** Data Preprocessing, EDA, Feature Engineering, Data Visualization
- Database & Core:** MySQL, SQL, OOP, Data Structures and Algorithms, Debugging
- Tools:** Git, GitHub, VS Code
- Language:** Hindi, English
